FUCHSIAS 1955

SHY LADY

WALTZ GARDENS *Fuchsias Exclusively*
148 SHADY LANE :: ROSS, CALIFORNIA

FUCHSIAS

Visit our gardens in Ross, seventeen miles north of San Francisco across the Golden Gate Bridge. We have specimen plants of all the fuchsias listed in this catalogue, growing and named, in our gardens for display and bloom. Also shown are the various ways in which they can be grown, such as fuchsia standards, hanging baskets, etc. Potted plants range in price from 60 cents in 4 inch pots up to \$10.00, according to size of plant.

Read carefully before ordering. Write plainly. Print your name and address clearly. Remit with order by check or money order. Currency or coins are acceptable but we cannot be responsible for loss.

RETAIL PRICES

All our new 1955 introductions in $2\frac{1}{4}$ - $\frac{1}{2}$ inch pots \$.75 each.

As we specialize in the newer varieties, all 1955 introductions by other hybridizers may be ordered by mail or obtained at nursery.

All 1954 varieties in $2\frac{1}{4}$ - $\frac{1}{2}$ inch pots \$.50, except patented and copyrighted varieties which are \$.75.

All other varieties listed in $2\frac{1}{4}$ - $\frac{1}{2}$ inch pots \$.35 each. We find a well rooted plant this size stands shipping best with less shock.

Special offer of 12 plants, in $2\frac{1}{4}$ - $\frac{1}{2}$ inch pots, all named varieties, our selection, \$4.00. List varieties you already have and we will not duplicate.

At times we may be temporarily out of certain varieties, so when ordering please name one or more substitute plants for second choice.

We guarantee all plants to be in perfect condition when shipped. Unless otherwise ordered, all plants are sent express collect. If you wish to have your order sent by parcel post, please be sure to so indicate and to include 50c to cover mailing charges. Packing free.

Minimum shipment \$2.50. On all orders for delivery within California, please add the 3% California Sales Tax.

PLEASE REMEMBER WE ARE CLOSED ON THURSDAYS.

We are members of CALIFORNIA HORTICULTURAL SOCIETY, AMERICAN FUCHSIA SOCIETY and CALIFORNIA ASSOCIATION OF NURSERYMEN.

NOTE — We are now a "Pinto Tag" nursery,
this assures prompt delivery.

1955 Introductions

by

Muriel Waltz

These four Waltz creations which we have grown for two years, bring new and desirable form and qualities to the fuchsia family. We maintain growing plants of all our fuchsias for display purposes at our garden nursery.

EASTER BONNET. A new large double pink, upright medium size bushy plant, can also be grown as a semi trailer. Has short tube of flushed rose and broad frosty upturned sepals shading from deep pink at base of petals to pale pink and are tipped with green. Corolla is a lovely dusky rose pink (usually about 30 petals) with slightly deeper shade at base of petals. The opening buds are beautiful, opening into a widespread ruffled cupshaped flower which instead of fading, blooms age to deeper shades of rose. Flowers are of excellent substance, lasting several days. Foliage dark olive green should be pinched back to basket or bush.

PURPLE NIGHT. A natural trailer with medium to large double flowers. Has short white tube and white buds slightly tipped with pink at base of tube. The upturned sepals are frosty white flushed pink. Corolla a deep royal purple in heart of flower, while the outer petals are heavily marbled with white and phlox pink. The purple corolla changes to fuchsin while the white and pink does not. This rich coloring remains attractive to the end. The long willowy branches are self branching with small foliage often trail 4 to 5 feet.

SHY LADY. An exceedingly lovely double with rose like flowers, exquisitely formed. Has short tube and broad pointed upturned sepals of ivory white. Corolla, a creamy ivory, opens into a symmetrical formal flower, as flower matures, its many petals turn an entirely new delicate shade of pale peach.

Upright grower, self branding, free blooming. Foliage dark green, medium size, needs no pinching to make an ideal pot plant. Very showy because of the daintiness of its peach-ivory coloring. You can't help but like this flower.

SO BIG. The first comment of those who visited our garden this year and saw the testing plants of this fuchsia was "What's that, its So Big," hence the name. A double flowered pink and white natural trailer, with rather long rosy pink tube. The long stemmed pointed buds are huge and open slowly into exotic like blooms. The corolla is creamy white with long upturned sepals of pale pink which often measure five inches from tip to tip.

Foliage a bright green and in a basket or standard well cared for and pinched back early, will have lush almost tropical growth. Prefers shade or filtered light.

Won First Prize double fuchsia seedling, 1954 San Francisco Flower Show.

1955 Introductions

by

Clement Schnabel

•

For 1955 Mr. Clement Schnabel has chosen three fuchsias which are outstanding for color, vigor and garden performance. These are the originator's descriptions:

BURGUNDIAN. A double burgundy red flower with dark wine red shadings. The fully double spreading corolla is rather short and of a dark maroon color. The granular sepals are deep carmine as is the medium wazy tube. Tough wirey stems. Burgundian is a seedling of Gypsy Queen and is best handled like Gypsy as a tall background plant. The branches are more arching than its parent but the leaves are equally dark and leathery. An unusual dusky ox blood color. 6 - 7 feet. Garden tested.

PLUM GLORY. A well balanced flower on a naturally self branching trailer. Plum Glory is so named because of the globular corolla and the color which is an "off shade" of petunia purple and plum like in hue. There is no hint of

blue and as the flower matures it changes to an acceptable shade of muted red. The recurved sepals are broad, granular and deep carmine. Plum Glory is exceptionally free blooming. Lateral branches appear spontaneously and flowers readily. Medium foliage. To 5 - 6 feet. Garden tested.

ROSE CHIFFON. A semi double trailer with apricot overtones. This natural trailer is exceedingly free blooming and the medium sized globular flowers are a blend of Rose Bengal in the corolla with Rose madder sepals. The auxiliary petals are apricot tinted giving the flower a warm rose pink cast. Rose Chiffon will make a very large showy plant in a 12" pot. In the ground it will grow to 6 - 7 feet. Garden tested.

DOUBLE FUCHSIAS

BLUE EYES (Reedstrom) 1954 introduction. Upright or will make a stiff basket. The contrast of the double blue corolla with the pale pink sepals is very effective. A good plant in the shade, it will stand lots of pinching.

BLUE WAVES (Waltz) 1954 introduction. Double corolla with waved petals of deep campanula violet, tube is flushed pink and upturned sepals are Neyron rose. The outer petals are splashed rose while the center remains deep violet blue. Can be pinched to make a basket.

BLUE PENDANT. A medium sized double flower. The sepals are pale rose, petals pale campanula violet. Moderate branching growth. May be grown as a basket.

BOUDOIR (Reiter) 1954 introduction. Large double flowers of daintiest coloring, petals of pale Bishop's violet which fades to pale orchid purple, sepals of creamy color.

BERNADETTE. A fine upright plant whose lateral branches are held horizontally. Sepals are pale rose, double corolla in Veronica "Blue." Medium sized flowers in the popular blue tone.

DOUBLE FUCHSIAS

(Continued)

BRIDESMAID. Patented. Double corolla of pale lilac orchid deepening toward edges. White tube and sepals with light carmine blush. Strong upright bushy grower. Under license with the patentee, we grow our own.

CATHY MILLER. Sport of Bolero with more willowy growth and more abundant bloom. Corolla soft orchid and tube short, broad upturned sepals are bright red. Medium grower.

CLARION. Flowers are medium large double, incurved petals deep rose Bengal, recurved sepals crimson, fading to magenta. Upright grower.

CRINOLINE. A double flower, somewhat resembling Seventeen, but large and paler, broad sepals are rosy white. Corolla clear pale rose strong upright growth. A beautiful fuchsia, and takes our heat very well.

CORPUS CHRISTIE. Petals are long and flushed at the base with rose bengal blending into mineral violet. Sepals are broad and heavy with firm up-curve; soft tyrian rose.

DAINTY DAMOSEL. Upright. Semi-double flaring flowers in ivory and orchid. Corolla of rolled petals in deepest cobalt violet which fades evenly to mallow purple backed by short, sturdy, star-like clear white sepals. Short, waxy pink tube.

DON PERALTA. Very large flower, usually semi-double corolla, with a long tube and long spreading sepals. Coloring much like the variety Anna.

ELECTRA. Double flaring corolla with large center. Petals palest pink veined pink, shorter outside petals flushed pink; strong upright grower.

FASHION. Medium size white tube with upturned sepals of rose underneath, flushed pink on the outside. The corolla of deep Methyl violet has marbled petals of Mave, with extra narrow petals of rose which overlay the corolla adding to its beauty.

FANTASY. A semi-double, wide open, flat flower. Corolla consists of four large double purple petals, palest orchid pink at wide open center, and shading to deep dodge purple at edges. There are a number of smaller, folded petals tusked in between and above the larger ones, mostly pink, with dodge purple edges. The many stamens are extra long and flare out in a novel fashion from the open center, making a bizarre and attractively colored flower.

FLIRTATION. Semi-double corolla delicate orchid or palest petunia purple, all petals with serrated edges. Tube and reflexed sepals light pink, sepals tipped pale green. Will trail.

FLYING CLOUD. Pat. Semi-double to double white. Tube and long spreading sepals white, petals with palest rose tint. Flowers are well placed on strong arching branches. An easy upright grower. Will make a fine pot plant. Under license with the patentee, we grow our own Flying Cloud.

FLORADORA. Short tube and broad pagoda sepals, of neyron rose stand out from the base of the flower like four points of a star. Corolla is a deep Victorian violet, slightly flushed with rose at base of petals. The ruffled petals open into a round, compact flower. Medium upright bush, free blooming.

FLUORESCENT. Reg. A very beautiful fuchsia. Tube and long broad sepals white faintly marked pink, semi-double corolla deep lilac orchid, willowy grower. One of our show baskets this year. Under special arrangement, we grow our own.

FRENCH. Tube flushed white, the wide upturned recurved sepals are salmon pink, corolla silvery blue and pale rose mauve, with splashes of pink. The lovely bud when opened is rose shaped and the matured flower flaring open into a rather irregular picturesque form is almost as lovely as the bud. A gorgeous plant in bloom.

DOUBLE FUCHSIAS

(Continued)

FASCINATION. Large double pink, deep pink sepals. One of the finest, specially large in cooler climate.

GRAY LADY. Pale grayish blue, double globular corolla with upright rosy sepals. Delicacy of coloring and perfection of form are unsurpassed. Vigorous upright.

GYPSY QUEEN. A very fine enormous flower with deep crimson calyx and rose-mauve corolla.

GYPSY PRINCE. This excellent variety has very large flowers and free blooming habits of the parent variety, but Gypsy Prince has a corolla of deep violet purple. Tube and broad upturned sepals are bright red. Be sure to try this new member of the gypsy tribe.

HIS EXCELLENCY. Double purple and white. Corolla violet purple and very double. Sepals pagoda type white, buds white. Upright and good growth; should have some shade. May trail.

HOLLYDALE. The corolla of Hollydale is clear pale magenta, close to the color of fuchsia Mrs. Desmond. Habit of growth and free blooming quality of W. Churchill.

HONEY MOON. True sensation in blue. Semi-double wide open veronica blue corolla and red sepals.

INNOCENCE. The double flowers are medium sized semi-double with spreading, glistening white petals, and upturned sepals of palest rose deepening to crimson at their base. The short tube is crimson.

JOAN OF ARC. This variety is of a clearer white than Ave Marie, and is of better form with larger double flowers. Cool conditions are essential to its successful culture. Will trail.

JUBILEE. Upright. A large bicolor double corolla of magenta red edged with dark tyrian rose. Long, spreading sepals, white flushed pale rose. Strong bushy grower.

KITTY O'DAY. Suitable for pot culture. Flowers very double; large tube and sepals rose red; corolla white and veined rose.

KING'S RANSOM. (Schnabel) 1954 introduction. A vigorous upright bush producing many strong branches which are strung with globular, medium sized double flowers. The broad recurved granular sepals are clear white, while the many petaled corolla is deepest Imperial Purple.

LACE PETTICOATS. Patented. Double corolla of serrated petals of white faintly shot with palest blush. Large full flower, outspread white sepals. Is most white in the shade. Vigorous upright grower. Under license with the patentee, we grow our own.

LADY ANN. Double spreading corolla formed of many curled petals, opening purplish-blue, with most of the outside petals marbled phlox pink. Short tube and broad, spreading sepals are white. Strong, bushy, upright grower with fine foliage.

LUCKY STRIKE. A great novelty hit in striking coloring. Double corolla in blue, rose and pink. Pale flesh upright sepals.

MISS FRILLS (Tiret) 1954 introduction. Double spreading corolla with scalloped petals of soft orchid lilac, tube and upturned sepals rose pink. Bushy grower and free bloomer.

MOONLIGHT. The short tube and long frosted sepals are greenish white tipped with pale green, the corolla palest flesh pink has overlapping petals veined with pale rose. As flower matures instead of fading the colors deepen and flares open slightly. This plant is self branching, very free flowering. Medium sized clean foliage, will make a basket as well as a beautiful pot plant. Hardy, heat resistant.

DOUBLE FUCHSIAS

(Continued)

OLD SMOKY. A double producing large flower of novel coloring. Tube and sepals flesh pink, underside of sepals pink, corolla old rose with a smoky cast. Upright grower, useful as trailer also.

PAN AMERICAN. Scandent habit; flowers very large; sepals red, corolla pale pink.

PATTY EVANS. Soft pink sepals and tube, and ivory white corolla. Bushy grower and good bloomer.

PARTY FROCK. Copyrighted. Upright to four feet. Very large semi-double corolla of a pastel blue. The outer petals appear to have been hand painted with a soft pink. Long rose colored sepals resemble a large bird in flight.

PEPPERMINT STICK. A double on the Purple Heart order. Tube and upturned sepals carmine rose; corolla royal purple in center; outer petals, light rose with purple edge. Good upright grower.

PETITE. A small double pastel with bright lilac blue corolla and soft rose tube and sepals. Vigorous bushy grower ideal for potting.

PINK FAIRY (Waltz) 1954 introduction. Large double clear pink corolla and creamy white tube with broad recurving sepals of palest rose slightly tipped with white. The petals are a beautiful clear pink, slightly deeper at base, and when fully matured often opens wide, giving a star-like effect to flower. A good self branching upright with beautiful clean, dark green foliage. Needs no pinching back to make a show pot.

PINK QUARTET. A quartet of rolled petals, surrounded by spreading ones. Broad, short, upturned sepals, deep pink; corolla pale pink. Strong upright, free bloomer.

POLAR SEA. Strong upright. Double corolla of dark imperial purple marbled white at the base. Tube and sepals white.

PRES. FELIX FAURE. A double of the darkest purple splashed with crimson;

tube and sepals turkey red. Heat resistant.

PURPLE HEART. A double with broad, upturned, red sepals. Corolla violet purple in center; outer petals fuchsia pink, some marbled with purple. Upright with long willowy branches.

REVERIE. Medium-sized double in the popular pink shade. The recurved sepals are soft pink, corolla pale tyrian rose; petals are waved and spreading. An upright grower and quite heat tolerant.

ROSANA. A full double large rose, a fine self in solferino purple. Very productive in flowers, extra fine foliage.

RUBEO. Vigorous bush with large rugose foliage. Corolla ranging from deepest rose bengal on the center petals to deep crimson on the outer petals. Pale carmine tube and carmine sepals.

SAPPHIRE (Waltz) 1954 introduction. Double corolla of deep purplish blue and wide frosty sepals of clear pink inside and outside flushed pink, with short creamy white tube. Ideal for pot plant.

SANTA CRUZ. Deep crimson sepals and corolla. A fine upright grower.

SAN LEANDRO. Double, magenta to vermilion, tube and sepals carmine. Upright grower; large flowers don't mind a little heat.

SEVENTEEN. A double self-colored fuchsia of real rose shade. The petals of the large double flower and the thick recurvign sepals are clear rose madder.

SHARON. A semi-trailing variety. The flowers are double and well formed, sepals of palest scarlet. The petals are rose bengal splashed with extensions of geranium lake at the base.

SNOW BALL. Large white double. Corolla creamy white and very double. Tiny flush of pink at base if in sun. Sepals long and reflexed. Vigorous grower but needs moist conditions in warmish shade with good drainage.

DOUBLE FUCHSIAS

(Continued)

SOPHIA. (Tiret) 1954 introduction. Double Dubonnet purple corolla, tube and long sepals waxy white, inside of sepals flushed palest carmine. Strong, upright grower.

SUSAN. A truly pastel double. Sepals of pale rose are curved upwards. The petals are serrated and pale blue with a tinge of pale campanula violet splashed with mauve. This is a medium sized plant with rather small leaves.

TELEVISION. Large double, tube and sepals, white outside, pale pink underneath. Corolla deep orchid shade, splashed with fuchsia pink beginning at base of petals and extending to tips. Very beautiful coloring. May trail.

THE ARISTOCRAT. The longish tube is a creamy white, has beautiful wide upturned sepals which spread out pagoda fashion from base of stem, and are pale rose tipped with white. The creamy white serrated petals of the corolla are slightly veined rose at base of tube, and flare out from base matching the spreading sepals above. The pistils are also pale rose producing a dainty and charming color effect. Strong upright grower similar to Gypsy Queen.

THE DOWAGER. A large double flower. Tube and recurved sepals are magenta red, petals or blue purple. A vigorous, branching growth.

TITANIC. Double corolla ranges from carmine at base of petals, to deep petunia purple toward the edges which have a light "bead" margin. Short carmine tube and thick recurved carmine sepals. Will trail.

TUTU. The large flat double flowers have densely spreading irregularly lobed petals of pale Rhodamine Purple flecked with pale Aster Violet. The spreading sepals are palest rose inside and greenish white outside. Will trail.

TREASURE. Fine upright growth with plenty of flowers. Very pale orchid double corolla of large size; calix neyron rose. One of the best.

VIENNA. One of the best of the Gus Niederholzer blues. Tube and long recurved sepals Bengal Rose. Petals soft lilac blue, splashed with both pale and Bengal Rose. Extra long pistil and well formed stamens complete this flower. Upright, vigorous grower, self-branching and free blooming. Will trail.

VIOLET GEM. A large semi-double flower of exceptional beauty, with short stem and upcurved sepals of carmine, the petals are wide spread of deep violet with just a touch of carmine at base of flower. Prefers shade and if kept in shade, does not fade, but retains its beautiful coloring to the last.

VOODOO. Patented. Double corolla darkest of any large double fuchsia — a deep purple-violet. Short tube and long, wide, upturned sepals darkest red. Strong upright grower, large flowers. Very good.

WEE ONE (Tiret) 1954 introduction. Double medium size corolla and inside of sepals a lovely soft pink, tube and outside of sepals slightly paler. Strong upright grower, highly recommended. Will trail.

WHITEMOST. A sensational beauty. Perfectly white fluffy large corolla and faintly pink sepals. Extremely floriferous. Will trail.

WHITE WONDER. A double flower of snow white; wide sepals are crimson. Tall vigorous plant.

WINSTON CHURCHILL. Double corolla magenta pink, shaded blue, upturned sepals rose pink. Strong medium high grower. Good sized flowers and a continuous bloomer.

WONDERBLUE. Very double real blue corolla, phlox pink calix. All petals are distinctly scalloped. Fine upright grower.

YONDER BLUE. (Tiret) 1954 introduction. Double globular corolla of deep blue and broad upturned sepals of rose red. Large flowers on a vigorous upright growing type.

SINGLE FUCHSIAS

AURORA SUPERBA. Sepals and tube of light orange apricot, corolla of deep orange peach.

BLACK PRINCESS. 8 feet tall, gracefully arching branches, very floriferous, the darkest single wide open flower, deep purple corolla and red sepals.

CARDINAL. Giant single scarlet red, flowers in great profusion. Very strong semi-climber.

CHANG. Single brilliant orange; flesh sepals flushed red. A strong upright grower, free bloomer.

CITATION. Single white corolla. Tube and saucer-like sepals light to rose pink. Bushy upright grower. Noted for abundance of large size flowers. Deep green foliage. Considered tops.

CLAIRE DE LUNE. Long narrow blooms of salmon-orange, corolla flaring out at the end. Broad leaves.

ERECTA NOVELTY. Single white and pink, corolla margined with rose. Flowers erect.

GUINEVERE. One of the finest in the large single. Tube and long broad spreading sepals are white; corolla a beautiful shade of blue violet.

GREEN 'N GOLD. 1954 introduction. Variegated sport of Glendale. Flowers the same as Glendale, but leaves of deep and light green, cream and gold with a reddish flush on young leaves.

LITTLE BEAUTY. Dwarf compact bush. Very free flowernig with lavender blue corolla changing to rosy lavender; deep pink sepals.

LORD BYRON. Small black purple and red. Corolla deep velvety purple; sepals bright scarlet. Dwarf bushy habit.

MARIN GLOW. (Reedstrom) 1954 introduction. Vigorous self-branding bush to four feet. Corolla, single purple fading to magenta. Sepals pure white, and seem almost phosphorescent. Heat resistant, makes an excellent pot or tub plant.

MAZDA. A large vigorous single. Deep carmine sepals. The petals of the broad spreading type are of deepest carmine.

MINUET. Strong grower; flowers large wide open; sepals and tube red; corolla brilliant purple. Heat resistant.

MIRACLE. Long tube almost white. Single serrated corolla is striped in pink and white. A dainty novelty.

MISSION BELL. A single, bell-shaped, flaring flower. Stem and sepals bright crimson, corolla royal purple, fading to magenta. Strong, upright grower.

MORNING GLORY. Single orchid pink and pale pink. Corolla clear orchid pink, flaring as Sunset, sepals upturned pale pink. Free blooming, self-branching.

MRS. RUNDLE. Very long tube and very long pointed sepals of flesh color, with vivid orange corolla. Will trail.

OTHERFELLOW. Single, deepening from near-white at base to coral pink at petal edges; tube and short green-tipped sepals are waxy white. Strong upright grower, very free blooming. It's cute.

OREGON TRAIL. Single flower, upturned sepals crimson. Petals open flat saucer shape. Petals light amparo-purple. Upright grower, free blooming.

OTTO. Remains popular because of the abundance of large purple and crimson flowers, and its beauty as a pot plant.

PERKY. Sepals waxy white, sharp pointed tips of deep pink. Single pink corolla. Foliage small. Miniature flower.

ROSE OF DENMARK. Lustrous rose pink, recurved sepals white. Medium sized flowers and blooms freely.

SCARLET BABY. Most graceful single red and purple. Brilliant red curved sepals. Long stamen and pistil. A vigorous grower.

SUNRAY. Ornamental variegated foliage, silvery white and green. Rosy purple corolla and salmon sepals.

SINGLE FUCHSIAS

(Continued)

SLEIGH BELLS. (Schnabel) 1954 introduction. An all white beautiful single flower. Sleigh Bells has long thin pointed upturned white sepals slightly tipped green, and a long slim white tube. The single white corolla forms itself into a perfect bell, the clean foliage has rather small pointed leaves which combined with spreading branches make a perfect setting for the bell like flowers. Ideal when espaliered, can also be grown as a bush.

SUNSHINE. A bushy type plant with an abundance of bright medium sized single flowers. Tube pale rose, and sepals pale tyrian rose tipped with pale green. The petals are bright geranium lake shaped with rose carmine margin and are often serrated.

SUNSET. A well shaped bush with fine foliage, pale pink calix, and wide open single corolla of brightest sunset color.

UTOPIA. The largest single perfectly shaped fuchsia. Dark tyrian red corolla, brilliant crimson rolled up sepals. Will trail.

VIOLETTA. Large bell-like single flowers of Bishop's violet. The well recurved slim sepals are ivory white forming a sharp contrast to the deep violet petals. In the mature flowers the color changes to orchid purple but the glistening sepals retain their whiteness until the entire flower fades. Violetta is vigorous, upright and free blooming.

VIVIEN LEE. Medium size single flower with very pale pink corolla and slightly darker sepals. 3 foot upright.

WHITE COLD. Bush. The blooms are white with touches of pink. It is the variegated, golden, white-tipped foliage that is the beauty of this fuchsia. **WHITE GOLD** just must have the sun to get its golden leaves.

DOUBLE FUCHSIAS TRAILING

AFTERGLOW. (Reiter) 1954 introduction. Plant of medium vigor with arching branches and with qualities of double flowers in the light flame colorings. The medium sized flowers open from cream colored buds that unfold into frilly, double, powder-puff flowers

AMAPOLA. Usually semi-double, rose purple; tube and sepals dark pink. Vigorous grower, large flowers.

ANNA. Double corolla with outer half of petals strongest magenta while the base of petals, and the sepals and tube are of strongest carmine.

AUNT JULIANA. Sport of Uncle Jules, identical in form and growth. A large double, pale lavender blue corolla, with red upturned sepals.

of unfading pale flame. The tube and coloring pale rose with maturity, but the puffy airy petals holding their same pale colorning throughout their life.

AVALANCHE (Schnabel) 1954 introduction. A white star-like double flower with broad, thick, white sepals edged with rose. Many tufted white petals make up the spreading corolla. The branches are thick and produce the flower clusters at their tips. In warmer climates Avalanche will be willowy.

BETSY ROSS. (Jones) 1954 introduction. Trade Mark Reg. Double corolla of rich blue violet. Tube and outside base of upturned white sepals deep flesh, inside of sepals blue, tipped pale green. Bush growth for good pot culture.

DOUBLE FUCHSIAS TRAILING

(Continued)

BLOOMER GIRL. The short tube and long sepals which turn straight up are bright carmine. There are two tiers of pleated petals; the longer ones are of the palest pink, veined carmine, and tipped at the base of the flower with carmine; the upper tier, with the same shadings, are pleated in tight at the base of the flower, giving a puffed out appearance.

BLUETTE. Tiny lavender blue and rose red. Corolla quite double lavender blue; sepals rose red. Dainty little plant covered with lovely tiny flowers. A pretty little trailer.

BLUE PETTICOAT (Evans & Reeves) 1954 introduction. Double corolla of beautiful silvery lilac-lavender. Tube and outside of sepals white, inside palest blush. Excellent as a hanger.

CROWN JEWEL. Double widespread ruffled corolla an attractive glowing rose, greenish tube and long, broad, white sepals that are faintly blushed and of good substance. Medium large leaves and large flowers.

ENCHANTED. Patented. Large double campanula blue and rose red. Corolla blue purple overlaid with fuchsia pink. Sepals rose-red.

GAY PAREE (Tiret) 1954 introduction. Double corolla with center petals purplish and with variegation, outside petals phlox pink with purple splashes. Broad upturned white sepals tipped green flushed pale carmine. Will make a good hanger.

GUS NIEDERHOLZER. A large double flower of Veronica Blue. Sepals are carmine. The flower opens bell fashion, fading to a brilliant orchid shade. Best as trailer or standard. Free blooming and self-branching.

MERLE HODGES. Double, soft powder blue corolla. Outside petals flushed pink. Sepals rosy red. Low, spreading bush or basket. Best in cooler sections.

MOLESWORTH. Medium size, of perfect shape, scarlet tube and sepals and full double snowy white corolla. The branches are pendant.

MOTH BLUE. A double fuchsia, best grown as a hanging basket variety. Tube and upturned sepals deep red, petals deep lilac blue. Requires pinching back.

NONPARIEL. A very fine grower and most floriferous, ivory-pink calyx and pale purple-blue corolla.

SAN MATEO. Very large double victoria violet corolla with fuchsia pink splashes. Leathery pink calyx. Fine hanger.

SAN PABLO. A sport of San Mateo with even better trailing habits. Flower same form and size. Color rose orchid with rose pink stem and sepals.

SNOW FLURRY. The near-white flowers are medium sized to large, and have a rosy flush at the base of the tube and petals. The branches are arching to pendulous and the small foliage is light green.

SOUTH GATE. A double pink of very nice form. Corolla neyron rose; tube and sepals white tipped green, very good.

STREAMLINER. Patented. Long, thin tube and long twisted sepals of bright crimson. Corolla, semi-double and of the same shade. A natural trailer, free bloomer. Flowers are large.

STELLA MARINA. Seven to eight feet, but can basket. Semi-double long corolla, campanula violet heavily marked light crimson pink.

SWINGTIME. Double corolla milky white. Tube and short, upturned sepals shiny red, inside of sepals rose red and of crepe texture. Good grower of branching habit. Early and free blooming. One of our most popular trailing varieties.

DOUBLE FUCHSIAS TRAILING

(Continued)

TUMBLING WATERS (Reiter) 1954 introduction. A double flowered purple trailing variety. The double flowers are large, well reflexed sepals of dark crimson on outside and light crimson inside. Type trailer in the big purples.

TRAIL BLAZER. Best described as a double red spider, with sepals a little paler in color. This is a real trailer, with branches hanging directly down the sides of the basket.

UNCLE JULES. Double violet blue, sepals crimson. Foliage is small and thick and the growth scandent. Giant double of fine "blue" coloring.

VAGABOND. Large double corolla cerise-red flushed geranium lake on outer petals. Long broad recurved sepals deep red. Very strong grower. Large leaves with enormous flowers. Very fine.

SINGLE FUCHSIAS TRAILING

AMERICA. Long thin tube and sepals rose madder on the outside, solid crimson on the inside. Single short corolla deep crimson.

AUTUMNALE. Highly colored foliage of bronze, orange, yellow and green. Grow in sunnier location, pinch back frequently.

BOUFFANT. A long, single flower of willowy growth. Will make a good trailer. Medium tube, large spreading sepals, pink to rose. White petals, tinged with pink at base.

CAVALIER. Basket. Resembles CASCADE, though slightly more woody in growth. Long, large, bell-like single flowers are petunia purple with the base of each petal changing to rhodamine. Long twisted sepals are pale carmine pink. Heat tolerant.

CARIOCA. Large, single, spreading corolla of self rose shadings, with long upturned rose sepals. A natural trailer with medium-sized leaves. Very free blooming, heat resistant; easy to grow.

CASCADE. Masses of large single blooms, long pointed sepals white flushed carmine and deep carmine corolla, spread of sepals usually about six inches.

CLARET CUP. Very large flowers with recurved pale carmine sepals and corolla of rose bengal. A striking plant.

COLUMBIA. A sport of the famous America, identical in growth and flower, except that in Columbia the outside of the sepals are just slightly flushed pink and the long tube is white.

GLORIOUS. A fuchsia of a brilliant rose shade, large flower with white tube, the curved sepals are white on top, neyron rose underneath. Petals are rose bengal, good foliage, free bloomer.

JACK SHAHAN. The long tube and pagoda-shaped sepals are of the palest rose bengal and the petals of the same color are margined with a darker shade.

LULLABY. Basket. Double corolla of warm rose. Same coloring as CRINOLINE only slightly more lavender and a shade darker. Nearly white recurved sepals. Heat resistant for flowers in this color range.

LILIBET (Hodges) 1954 introduction. Double soft rose corolla flushed geranium lake, long tube and recurved white sepals flushed pale carmine. Beautiful long pointed, green tipped buds. Best displayed as a hanger.

SINGLE FUCHSIAS TRAILING

(Continued)

MANTILLA. Trailer with soft willowy branching growth. Bronzy foliage. The flowers are deep carmine. Tubes 3 inches in length. Petals are spreading with pagoda-like sepals. Free bloomer.

MARINKA. Almost a self color with rosy scarlet corolla and crimson scarlet sepals.

MISS CALIFORNIA. Single to semi-double. Corolla faintest pink. Sepals medium pink, shaded with deeper pink. Does best in cooler weather.

MRS. VICTOR REITER. A long tubed single bi-color. Corolla a pure crimson fading to white at base. Slender sepals and long tube of creamy white.

PINK ELEGANCE. Patented by Waltz Gardens, No. 143,684. Tube and long upturned sepals are salmon pink on the inside, flushed pink on the outside. The bell-shaped corolla has overlapping and often pleated petals of bright phlox pink spreading wide at tips of petals. Prefers morning sun, or filtered light.

POTENTATE (Reiter) 1954 introduction. An all-purpose arching grower, suitable as a climber or for a hanger. Huge flowers of Rubeo type, the long stemmed buds are rose madder tapering to pale rose at the tips. Long tubes and long recurved sepals of rose madder.

PURPLE SAGE. Single saucer shaped deep purple corolla opening perfectly flat with recurved deep red sepals. Medium grower.

RED CAP (Hodges) 1954 introduction. Large single flowing corolla of a showy cerise rose with a flush of orange at the darker petal edges. Thick tube and sepals bright red. Best used as a hanger where the many wide open flowers are displayed to greatest advantage.

RED SPIDER. The spidery flowers have a long tube and exceedingly long narrow horizontal sepals of deepest crimson; long downward pointing petals of deep rose madder veined and margined deep crimson.

FUCHSIAS FOR SPECIAL PURPOSES

If you are planning a fuchsia garden or wish to train fuchsias tree shape, pillar, trellis, etc., we would be pleased to help you select the proper varieties.

Join *The American Fuchsia Society!* They publish a monthly bulletin which is helpful to fuchsia lovers and shade gardeners. Dues at \$2.00 per calendar year. Address: Mrs. Ellen O'Brien, 263 Cayuga Avenue, San Francisco, California.
